**Use Dragon Medical One (DMO) and achieve higher quality documentation and greater flexibility and save up to 2 hours per day.**
Open Dragon by clicking the Dragon Login button on your Epic.

If you don't see this button, call the Help Desk at 253-403-1160 (PSR) or 509-473-4357 (INW) and they will set you up.

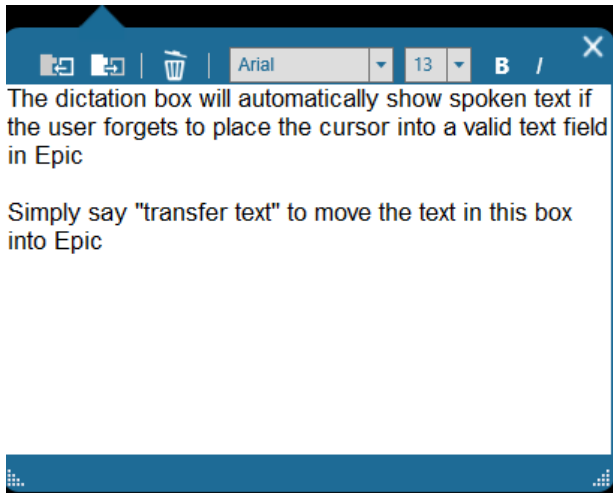

DragonBar—Dragon's toolbar

Turn the microphone on and off by clicking it with your mouse or by hitting the large + key on your 10-key number pad on your keyboard.
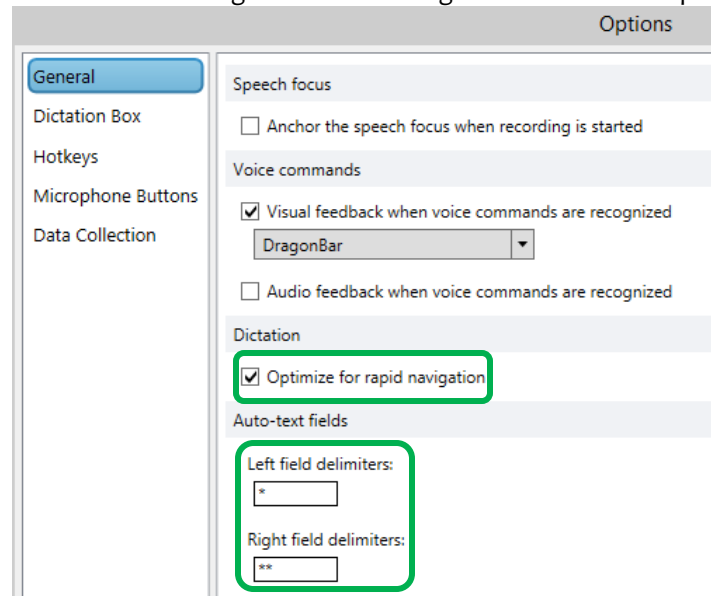

Microphone is off:

Microphone is on:

Click the flame icon on the right side of the DragonBar to access menus.

The Dictation Box

The dictation box will automatically show spoken text if the user forgets to place the cursor into a valid text field in Epic

Simply say "transfer text" to move the text in this box into Epic

Change a few basic settings

Click the flame icon on the right side of the DragonBar and choose Options.

- Check "Optimize for rapid navigation" to help Dragon operate in Epic more smoothly and efficiently.
- Edit left and right field delimiters to associate with Epic's wildcards (***) — with this, you can say "next field" and "previous field" to jump to wildcards in your SmartPhrases.

Basic voice commands to use in Dragon

Deleting text	*Using the Dictation Box*
Delete that	Dictation box
Scratch that	Transfer text
Undo that	
	Navigating within document
Selecting text	New line
Select [word(s)]	New paragraph
Select [word] through [word]	Insert before [word]
Unselect that	Insert after [word]
	Next field; previous field
	Go to end of sentence

PowerMic Mobile

Go to Google Play (if you have an Android) or the App Store (if you have an iPhone) and download PowerMic Mobile.

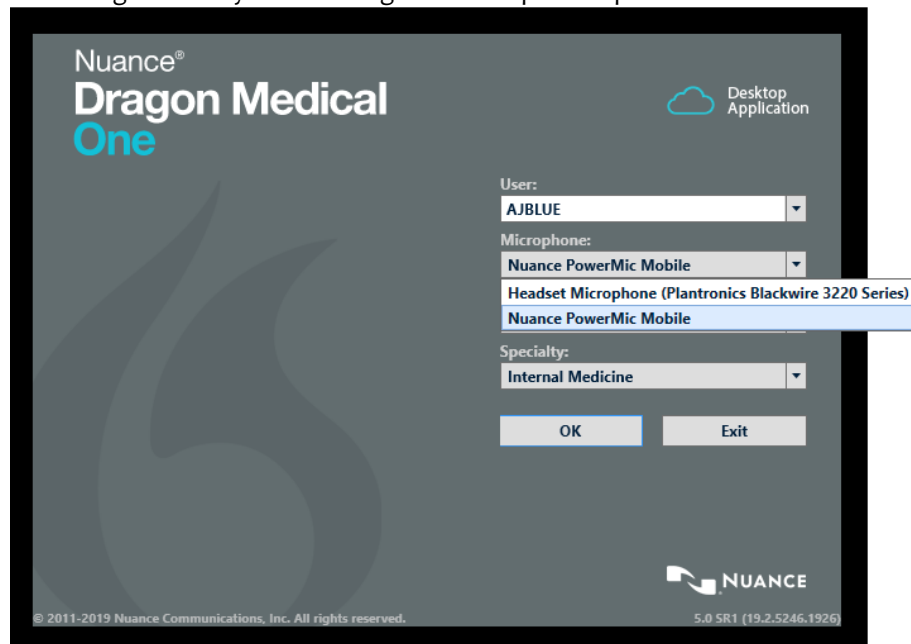

To sync the app to MultiCare's Dragon, you need to:
1. Be near your computer
2. Have Dragon open, launched from Epic
3. Have the microphone set to Nuance PowerMic Mobile

To set Dragon's microphone to Nuance PowerMic Mobile, you may need to log out of Dragon. Click the flame icon and choose Log Off.

On the login screen you can change the microphone option.

Then sync the app with MultiCare's Dragon by scanning this QR code:

You can tell on your DragonBar what microphone you're currently synced to:

Plug-in (headset microphone or handheld PowerMic device):

PowerMic Mobile app:

When the app is open and synced it looks like this:

Transfer text (from Dictation Box)

Microphone on/off

Previous/next field

with questions, please contact Alex Blue or Anna Yurina (in PSR) or Judie Johnson (in INW), your Dragon trainers
